

FEINSearch.Com launches as Nations Largest EIN Database Portal for Finding Business TAX ID Numbers

For Immediate Release

Palm Coast, FL - February 2007 - www.FEINSearch.Com, a service of NOBLE Ventures has compiled one of the nations largest Business TAX ID Database repositories of over 9 million EIN records.

FEINSearch is offering a limited FREE Search period to new registrants of 25 FREE Searches. www.FEINSearch.Com Portal is in its BETA Test mode, and users can search over 9.3 million US Business entities and Trusts as well as 501(3)(c) NON Profits to locate and verify the Business TAX ID number assigned by the Internal Revenue Service. "FEIN" is an acronym for Federal Employer Identification Number. EIN is an acronym for "Employer Identification Number".

EIN or Employer Identification Numbers are assigned by the Internal Revenue Service (IRS) to all entities as TAX ID Numbers, and are difficult to locate and verify publicly. Under the USA Patriot Act, all Financial Institutions such as Banks, Brokers, Insurance and even Shipping companies must record and verify the Identity and Tax ID of all account holders. Accountants and Financial Planners often refer to the Trust Tax ID or EIN in preparing documents, tax returns, and required filings. FEINSearch.Com will prove to be a valuable tool to locate and verify TAX ID numbers of Businesses and Trust in the US, and a useful tool in USA Patriot Act and AML (Anti Money Laundering) Compliance.

In 2004 the US Customs and Border Protection began requiring EIN data reported on Customs forms for those US entities receiving shipments from abroad.

The EIN Database Portal – FEINSearch.Com is searchable in a flexible "Google" type Boolean search or by Company name, State, or keyword search. FEIN Searc.Com returns results featuring useful business data such as; Name, Address, SIC, NAICS, Phone, EIN Number, URL, Description, Officer Name and other data where available. The Portal also offers a quick easy EIN Reverse Query, and PHONE Query – search by Phone Number. The parent company, NOBLE Ventures also compiles one of the nations largest BUSINESS Databases. The EIN Data is compiled from Form 5500 filings filed with the US Dept of Labor and the IRS Form 990 Forms filed by Non Profit entities as well as dozens of other sources.

Sample uses of the FEINSearch.Com Database include

- Locate / Verify TAX ID EIN information for W-9 Forms
- Verify entity Tax Payer Status as For-Profit or Not-for Profit
- Comply with requirements of the USA Patriot Act to "Know your Customer" and verify account holder information for Business Entities and Trusts as well as NON-Profit entities.
- Useful to Financial Planners and Accountants in locating proper EIN Numbers and locating good prospects for Pension & Retirement Planning and Account clients required to file forms with Government Agencies
- Essential to Importers and Exporters and Shipping / Package companies where Customs forms require the TAX ID or EIN on government documentation.

- FEINSearch.Com is a useful tool to State and Federal Contracting Officers, Corporate Investigators, Compliance Agents and Law Enforcement agencies.

The EIN Database FEINSearch.Com will offer subscription service access to its Portal 24/7 using tiered volume based subscriptions. The Company will also offer its proprietary "BATCH-MATCH" service for overnight Appending or verification of large files. Appended Data may include: EIN, address, updated data, Officers, Contacts, Phone, Fax, SIC, URL, Description, # Employees, Sales Revenue, MasterCard/Visa, Hours or other valuable information as available.

Qualified users of the FEIN Database are invited to Register at www.FeinSearch.com and run up to 25 searches without charge. The service is in its BETS Test period, and users may be asked to fill out a feedback survey.
